The Benefit of Angling is Great

NEVER was this more true than in the autumn of 1911, when, with a few exceptions, the fishing season was closed. The result was that the fish were scarce, and the anglers were disappointed. The fishing season was closed for the purpose of conserving the fish, and the anglers were disappointed because they could not catch any fish. The fishing season was closed for the purpose of conserving the fish, and the anglers were disappointed because they could not catch any fish.

"Who gets the prize?" asked the Colonel.

"That," said the young man, "is what I want to see first. I want a book." The captain merely smiled and said that he would be happy to see the young man's desire. He then said that he would be happy to see the young man's desire. He then said that he would be happy to see the young man's desire.

The speaker of it was then the young man. He then said that he would be happy to see the young man's desire. He then said that he would be happy to see the young man's desire. He then said that he would be happy to see the young man's desire.

What's the Real Battle Between

The first thing that came into the mind of the young man was the fact that he was a young man. He then said that he would be happy to see the young man's desire. He then said that he would be happy to see the young man's desire. He then said that he would be happy to see the young man's desire.

The young man then said that he would be happy to see the young man's desire. He then said that he would be happy to see the young man's desire. He then said that he would be happy to see the young man's desire.

Three days after the English public was in great trouble, the young man was in great trouble. He then said that he would be happy to see the young man's desire. He then said that he would be happy to see the young man's desire. He then said that he would be happy to see the young man's desire.

The British Home Guard

It is not surprising, with all the news of the young man's desire. He then said that he would be happy to see the young man's desire. He then said that he would be happy to see the young man's desire.

The young man then said that he would be happy to see the young man's desire. He then said that he would be happy to see the young man's desire. He then said that he would be happy to see the young man's desire.

Comments on Dr. Gault's Book
THE discovery of "Sweet Land" brings up an interesting theory and on public occasions I have often wondered how a negative attitude is often set off when I hear how he is so kind. I read some popular magazines with all of Hoffer's work in it and have avoided them. Now reading this article makes me feel sick seriously through out my morning.

Don't Hire a Servant—Buy One

Buying time by shortcuts is nowadays becoming a daily habit, like eating in take-away restaurants. The old way of cleaning kept one, continuously at it. With the present a little work every day accomplishes more and women live from a lot of hard work doing the old way.

The Power Cleaner is light in weight, thorough in operation and remarkably simple. The ordinary person can handle him easily on average requests. The machine can be operated in every direction despite the construction of its life line ropes and even the trip without spending time.

Brick or Wood?

High Mileage or Low Price?

Large factories and office buildings are built of brick or concrete—not wood.

Although wood is cheaper.

Because fifteen years from now the brick or concrete building will be good—but a wooden one would need rebuilding.

Apply that to tires.

To-day you are offered a Goodyear Tire and a lower-priced tire.

What will they be like six months from now? Will you need a new tire?

Enough motorists have made this test to make Goodyear Tires the largest selling brand in the world.

Enough motorists in your district have talked about it to make a very interesting story for the Goodyear Service Station Dealer to tell you.

"I Believe in Management"

This Toronto retailer sticks close to the idea that better management means larger profits—and he has worked out a practical and simple test to better management.

By G. Stanley Walker, *Editor, Toronto.*

"My time is spent as doing the work that my daily sheet of figures shows me ought to be done. That's my idea of management. And it leaves me plenty of time to spend on the floor of my store, in contact with customers—that no firm for the kind of details on management should be without."

"These figures that I speak of tell me exactly what is happening in every department of the business every day—what lines are moving, where the profit is, what goods are slow, what on my books. I couldn't get along without them. And the preparation of these figures—that's a detail that I don't worry about. A young man and a Burroughs Machine take after this, and I never give it a thought."

"I remember that I was accused of extravagance when I bought a Burroughs Adding Machine, but it is, and has always been, a well paying investment just the same. It simplifies in a few minutes every morning. Figures that would cost me a great deal to get by any other method—

and that I have to leave. Also it enables me young man to handle all my bookkeeping and accounting work. That end of the business runs itself automatically and economically."

"I wouldn't be without a Burroughs—because I believe in management."

The A B C of Business

The essential Burroughs line combines economy for adding, for bookkeeping and for calculating—among them a model which will fit into any business, large or small, and repay its cost in the savings of a few months.

Burroughs Offices are maintained in many Canadian cities—St. John N. B.; Montreal N. B.; St. John N. B.; Quebec and Montreal P. Q.; Ottawa, Toronto and Hamilton, Ont.; Winnipeg, Minn.; Regina, Sask.; Calgary and Edmonton, Alta.; Vancouver and Victoria, B. C. The home office for the Dominion is at Windsor, Ont.

The most important feature of the Burroughs Adding Machine is its simplicity. It is so simple that any man can operate it. It is so simple that it can be used in any business, large or small, and repay its cost in the savings of a few months.

Pretty Teeth Are White Teeth—Free From Film

All Dentists Assured by Best Dental Advertisers

Film is What Discolor
When tooth discolor is caused by film, it is not a stain. It is a film. That's why it's so hard to get rid of. That's why it's so hard to get rid of. That's why it's so hard to get rid of.

Film causes most tooth troubles. It holds food substances which ferment and form acid. It holds the acid in contact with the teeth to decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea.

The tooth brush alone does not dissolve it. That is why the old-way brushing fails to save the teeth.

Dental science, after years of searching, has found a way to combat that film. Many clinical tests under able authorities have proved it beyond question. Leading dentists everywhere now agree to its daily use.

The method is embodied in a dentifrice called Pepsodent. And we are supplying a ten-day test free to anyone who asks.

Watch the Teeth Whiten
We ask you to send the coupon for a 10-Day Tube. The first you will receive. While here show the teeth left after using. Mark the absence of the gray film. Show tooth whitening on the front film disapparing. It will be a revelation.

Pepsodent is based on peroxide, the standard of whiteness. The film is the most rapid in its action. It is the only one that is so effective. It is the only one that is so effective. It is the only one that is so effective.

I wish all men were willing to do as much for their wives as I have done," says the author. "There are still too many who think of women as mere playthings."

THE old woman's death was not due to a fall away and no one nearby the doctor going about the third time caught her motion. Once I passed and gave her two tablets to be kept for about one week and half though she was certainly ill and needed something stronger. And my second visit was after about 10 to 15 days. And then I did not forget to go to see her but try the above. [I] was always very satisfied for the patients. I always quickly and better than any other, and as I don't remember the symptoms from the first time because

"Yes, well," I said, calmly and slowly to keep a little more orderly my somewhat hysterical mind. "I wouldn't be surprised to learn that I wouldn't be a friend of the old woman and that I wouldn't be one of those who are not so-called."

"I'm going out on the early morning train," he stated coolly and his eyes lit up as he said, "I'll be back by 11:30." "I'm on my way and I hope you'll see me," he said as he left.

"Strange man!" I mused, shaking my head in surprise.

"What?"

"That—the gentleman."

"You don't know," he replied, stopping when he saw I was not to be told but of the Ragged River.

"You just seem to stay in Blue Canyon all the time," I asked.

"Yes, I do."

Keating's Powder is the only powder that will make your nose disappear. It is the only powder that will make your nose disappear. It is the only powder that will make your nose disappear.

What soap

THE joys of the skin are the "beauty" of skin-beauty. And before they slip away from the skin, it is best to keep them so long as possible.

Fairy Soap cleans up skin a soft, soother, tender. This latter does not remain in the pores, but it is the skin's own soap. It is the skin's own soap. It is the skin's own soap. It is the skin's own soap.

Makes friends with your skin. It is the skin's own soap. It is the skin's own soap. It is the skin's own soap. It is the skin's own soap.
